

PARTICIPATING VENDORS

Ambulatory Consulting Services

Our primary professional services include ASC management, Licensing, Accreditation, turn-key development, and assistance with all matters of Regulatory Compliance.

Amit Gupta Consulting Services

We provide Consultant Pharmacist services by giving your staff valuable education and improving efficiency while helping to maintain patient safety. During one of our visits, we will review medication areas, charts, perform Controlled Drug Substance audits, and check for expired items. We want to be part of your team to help improve care at your Center.

AMSURG

As a leader in the ambulatory surgery center quality movement, AMSURG provides a unique approach to combining technology, data analytics, patient engagement and quality reporting that results in optimal outcomes for patients. As a result, we provide healthcare value, improve patient experience, and save lives.

Anatomy IT

Anatomy IT helps healthcare providers deliver exceptional patient care through technology and cybersecurity solutions. Our 30+ years of healthcare experience serving over 150 ambulatory surgery centers (ASCs) and multi-location practices, including cardiac, orthopedic, ophthalmology, mental health, and urgent care, allows us to provide the most optimized and comprehensive platform available to meet the unique demands of ASCs.

ASCLOGS

The ASCLOGS platform enables a team approach based on assignments tracking and reporting. Integrated tools facilitate data analytics, applicable even for apparently the most simple and mundane tasks, e.g. hand hygiene.

Corza Medical

Corza Medical's mission is to champion surgeons with outstanding products and remarkable service, saving time, money and effort. We are a global provider of medical devices and biosurgery products serving the surgical community, distributors and OEM partners. Corza Medical is committed to an exceptional customer experience, high-quality products, and outstanding value.

East Coast Biomedical Services

East Coast Biomedical Services provides Biomed, Med Gas, PM Service, and Emergency repairs to over eighty Ambulatory Surgery Centers throughout NY, NJ, PA region. Recognizing the critical importance of your facilities, smooth and uninterrupted operation, our highly trained technicians simplify the maintenance and repair of your equipment.

Facility Guard

In addition to the full suite of facility maintenance, construction and renovations services offered to our commercial customers, Facility Guard also provides industry leading consulting services to Ambulatory Surgery Centers and Doctor's Offices on a wide range of regulatory, administrative, and financial requirements

affecting your practice. By combining our physical plant maintenance services with consulting services, our clients benefit from the advantage of a comprehensive single-source solution provider.

Flooring Foundation

Flooring Foundation is a commercial flooring contractor that has a wide range of services that include flooring, painting, cleaning, power washing, handyman services and more. With our experience in healthcare and surgical centers, we can help facilities pass inspection from the Joint Commission by fixing flooring and wall imperfections, as well as trip hazards. We are an Infectious Control Risk Assessment certified contractor, and we service all of New Jersey, NYC/Upstate NY, and Eastern PA.

Global Med Systems

Global Med Systems provides a revenue stream to customers by purchasing their idle assets. We save health professionals money through discounted, certified pre-owned equipment. Our service depot offers warranties, field service, and preventative maintenance contracts.

Graham Field

Graham-Field is one of the world's leading manufacturers of medical products, with over 300 US-based employees all one mission to provide quality products to improve lives.

HST Pathways

HST Pathways is the leading provider of a suite of products that have been thoughtfully and clinically designed for the surgery center industry. Our many software offerings provide ASCs with intuitive solutions that cover the entire patient journey and help to unlock revenue, fuel growth, and deliver better care. Build, grow, and run your facility with solutions your entire team will love. See why more than 1,600 clients are choosing HST Pathways by visiting www.hstpathways.com.

ImageFIRST

ImageFIRST is the largest national linen provider specializing in the medical industry. We provide laundry services to health systems, hospitals, and outpatient facilities across the country. As leaders in infection prevention, ImageFIRST is also the owner and operator of the most HLAC-accredited facilities in the nation.

Consultants specializing in infection prevention in the state of New Jersey.

Insperty

Insperty provides flexible Payroll and PEO services for businesses that need HR administration, payroll processing, employee benefits, risk and compliance management, workplace training, and development courses.

JDJ Consulting

In 2001, John Karwoski founded JDJ Consulting, LLC, which today provides consultant Pharmacist services to a wide range of healthcare facilities throughout the country. Services include site inspections, cost reduction services, policy and procedure review and management, staff education and in-servicing, medication management oversight, 24/7 prescription order review, benchmarking, and quality improvement processes. Their mission statement remains unchanged from their start: enhance patient safety, maintain regulatory compliance, and reduce drug costs.

Learning Harbor

Learning Harbor provides web-based regulatory compliance training for healthcare employees, including mandatory annual training that conforms to Joint Commission, AAASC and OSHA requirements. Learning

Harbor's online modules give healthcare providers an alternative method of delivering required training with the advantage of around-the clock accessibility.

The Learning Harbor Curriculum is ideal for orientation and/or annual mandatory competency assessment, whenever and wherever the employees need it. The content is designed for adult learners with varying skill levels. In addition to training modules, Learning Harbor also provides a comprehensive testing and record keeping system, documenting those healthcare employees who have met their mandatory orientation or annual training requirements. Upon completion of an online module, the employee takes a short quiz to demonstrate comprehension, and when successful, can print a certificate documenting completion. Learning Harbor keeps track of employees and their training, so that employers can easily access and document their records. A record of employee compliance as well as departmental compliance is available at all times.
